

1) Design and Implement a library for HPO built upon RCT, i.e., that uses ENTK.

neural network

Requirements doc?

Design doc?

Library will be used by many ppl: ICEBERG, SLR, Lab, etc

- 2) Meetings To be aware of: RCT on Tuesdays, SLR
- 3) Look up: Paris Accord, IPCC
- 4) Run first small program suggested by Shantenu.
He sent me the instructions via email today.
- 5) Run first example of RCT on github
- 6) Read papers and references due so far in email
- 7) Read ICEBERG reference sent by Shantenu on Slack.
- 8) Start Talking To Matteo and Andre about containerization reports
