Week 1 - 9/20/2019

Containers:

- Understood what and why of Docker
- Compared to VM and understood differences
- Installed Docker Desktop Community and played around inside Docker Hub:
downloaded "Hello World" docker image

HPO:
- Existing HPO libraries: Scikit-Optimize, Hyperopt
- what can I take from them?

Technical:
- fixed problems with RP
- fixed problems with gsissh
- ran first example on RP (except for 16 batches of 8 tasks)
